PAU RUBIELLA GALINDO
Backend developer

PERSONAL INFORMATION

(34) 676618849

pau.rubiella@gmail.com

/in/prubiella

HARD SKILLS
- Docker, Kubernetes, AWS
- Microservices, DDD, SOLID
- Gitlab, Github, CI, CD
- API REST, 3rd party integrations
- PHP, Symfony, Yii
- MySQL, Mongo, Redis, RabbitMQ

SOFT SKILLS
- Communication & Collaboration
- Problem-solving
- Empathy
- Adaptability
- Time management
- Attention to detail
- Creativity
- Critical thinking
- Continuous learning

EDUCATION
IES Nicolau Copèrnic, Terrassa
- 2013 - 2014 Técnico superior en Desarrollo de Aplicaciones Multiplataforma (DAM)
- 2012 - 2013 Técnico superior en Desarrollo de Aplicaciones Web (DAW)
- 2010 - 2012 Técnico superior en Administración de Sistemas Informáticos en Red (ASIX)

LANGUAGES
- Spanish & Catalan: native
- English: B2

OTHER INTERESTS
- IoT, smart homes
- 3d printing

ABOUT ME

Keen on learning with new languages/services or hardware to keep myself up to date. I believe in sharing knowledge and learn from my workmates points of view to reach the best solution. I always learn something new.

WORK EXPERIENCE

DOCPLANNER | SENIOR BACKEND ENGINEER
November 2024 - now (full remote)

I'm working in payments team, leading distributed infrastructure improvements with .**NET**, **AWS**, and **Kubernetes**. Participating in creating new features for patients and doctors with **PHP**(symfony).

- Led distributed cache (Redis) implementation, optimized AWS infrastructure, resolved critical payment system incidents. managed cloud deployments that enhanced system performance and scalability.
- Developed features across multiple critical applications while conducting Kubernetes training and **improving team processes** and increasing team knowledge.
- Experienced in Docker, **CI/CD**, **microservices**, and REST APIs.

ATRÁPALO | SENIOR BACKEND DEVELOPER
June 2019 - October 2024 (4 days per week remote)

Worked in the Urban Leisure team, managing activities and shows.
- Integrating third-party services via **REST API**s to enrich and enhance the company's catalog. Symfony based **microservices** with a focus on **DDD** and hexagonal architecture.
- Project management and communication with external teams.
- Conducting **internal training sessions** to improve team productivity and visibility of work.
- Worked on improving continuous integration, pipelines, and migrating **Docker Swarm** stack to **Kubernetes**.
- Maintaining legacy code to gradually migrate functionality to new microservices, enhancing scalability.

JOYNERS | BACKEND DEVELOPER
July 2018 - June 2019 (full time on-site)

I worked closely with the CTO to develop functionality at both the backend and frontend levels.
- Utilized **Yii2** framework and implemented best practices like **SOLID**.
- Managed **web server and configuration** and conducted backups on S3. Managed project entirely using Bitbucket

FREAKSHEEP | SYSADMIN, BACKEND DEVELOPER, CO-OWNER
December 2014 - June 2018 (remote and on-site)

Entrepreneurial project dedicated to developing multi-platform applications and services.
- Proficient in creating and managing **cloud infrastructures** using **AWS**. Implementation of **web hosting systems** (ISPConfig3.1, EC2, RDS, VPC, Route53) and backup systems (S3).
- Integration with **Google Workspace**. Experienced in project management utilizing Bitbucket, Slack, and JIRA for efficient collaboration.
- Competent in **web application development** using **Symfony2** and **AngularJS** and in smartphone application development using **Ionic1**
